DENSITY 20°C	g/mL	1.131	1.110	1.150
METAZACHLOR G/L	g/l	493.81	475.00	525.00

Remarks

Your order includes an SC (Suspension Concentrate) formulaton, supplied in drums for further repackaging into smaller cans. SC formulatons packed in drums tend to form crust. The crust particles have to be removed by filtraton before repackaging in order to avoid possible clogging of spray tank nozzles. Removal of the crust does not afect the concentraton of the product. Our experience is with basket or self-cleaning filters with filtering elements of 150 micron or smaller. Please ensure to properly mix the content of the drum and fully empty it.
